

# Workshop

## ‘Images of Landslide Deformation’

18 October 2011, IPGS/EOST, Strasbourg

### Programme

Location: Salle du Conseil, EOST, 2è étage, Rue Descartes, Strasbourg

9.30 – 10.00: Nicola Casagli, Univ. of Florence

*“Monitoring landslide deformation through InSAR interferometry”*

10.00 – 10.30: Michel Jaboyedoff, Univ. of Lausanne

*“Experiments of landslide monitoring using micro laser scanner”*

10.30 – 10.45: André Stumpf, Univ. of Strasbourg & Univ. of Twente

*“Advanced image analysis for automated mapping of landslide fissures”*

10.45 – 11.00: Christophe Delacourt, Univ. of Brest

*“Imaging geomorphological processes with Unmanned Aerial Vehicles”*

11.00 – 11.30: Denis Jongmans, Univ. of Grenoble

*“Monitoring seismic noise as a tool for the forecast of rapid mass movements”*

-----  
Location: Amphi Géologie, EOST, 2è étage, Rue Blessig, Strasbourg

13.30: PhD Defense – Julien Travelletti

*“Imagerie multi-paramètres et multi-résolutions pour l’observation et la caractérisation de mécanismes de glissements-coulées”*
